

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

OCT 05 1982

EPA I.D. NUMBER: MOD092351642 ^{10/7}

Mr. Robert A. Schumaker
Senior Vice President
Georgia Pacific Corporation
40 Merchant Street
St. Genevieve, Missouri 63670

FACILITY LOCATION:
40 Merchant Street
St. Genevieve, Missouri

Dear Mr. Schumaker:

This is to acknowledge that the Environmental Protection Agency (EPA) has completed processing the information submitted in your Part A Hazardous Waste Permit Application. It is the Agency's opinion, based on the assumption that the information submitted is complete and accurate, that you as an owner or operator of a hazardous waste management facility have met the requirements of Section 3005(e) of the Resource Conservation and Recovery Act (RCRA) for Interim Status. EPA has not verified the information submitted. If it is determined that the information is incomplete or inaccurate, you may be asked to provide additional information or in certain circumstances it may be determined that you do not qualify for Interim Status. In addition, this notice does not preclude a citizen from taking legal action under the provisions of Section 7002 of RCRA.

A facility not meeting the requirements for Interim Status under Section 3005 of RCRA may be required to close until such time as a hazardous waste permit is issued. Interim Status may also be terminated, according to procedures in 40 Code of Federal Regulations (CFR) Part 124, May 19, 1980, if the owner or operator fails to furnish additional information which EPA requests in order to process a permit application.

As an owner or operator of a hazardous waste management facility, you are required to comply with the Interim Status standards as prescribed in 40 CFR Parts 122 and 265, May 19, 1980, or with State rules and regulations in those States which have been authorized under Section 3006 of RCRA. In addition, you are reminded that operating under Interim Status does not relieve you from the need to comply with all applicable State and local requirements.

The enclosure to this letter identifies the processes your facility may use, their design capacities and the types of waste your facility may accept during Interim Status. This information was obtained from the Part A Permit Application. If you wish to handle new wastes, change processes, increase the design capacity of existing processes, or change ownership or operational control of the facility, you may do so only as provided in 40 CFR Sections 122.22 and 122.23, May 19, 1980.

EPA considers the following to be the owner or operator of the facility and; therefore, the person(s) who must comply with the requirements set forth in 40 CFR Parts 122 and 265:

Operator's Name Phillip McKersie

Owner's Name Robert Schumaker

The information shown below is based solely on the information that the owner and operator of this facility submitted in Hazardous Waste Part A Permit Application. This is not a determination by EPA that this facility is an environmentally acceptable facility for treating, storing or disposing of the hazardous wastes listed below.

During the period of interim status, the facility may use only the following processes for treating, storing or disposing of hazardous waste, up to the design capacities that are indicated:

Process Code	Design Capacity (Units)	Process Code	Design Capacity (Units)
<u>S01</u>	<u>5,500 Gallons</u>	<u> </u>	<u> </u>
<u> </u>	<u> </u>	<u> </u>	<u> </u>
<u> </u>	<u> </u>	<u> </u>	<u> </u>
<u> </u>	<u> </u>	<u> </u>	<u> </u>

During the period of interim status, the facility may handle only hazardous wastes with the following EPA Hazardous Waste Numbers, and/or solid wastes exhibiting hazardous characteristics with the following EPA Hazardous Waste Numbers using the associated process code(s):

Waste	Process	Process	Process	Process	Waste	Process	Process	Process	Process
<u>U002</u>	<u>S01</u>	<u> </u>	<u> </u>	<u> </u>	<u>U220</u>	<u>S01</u>	<u> </u>	<u> </u>	<u> </u>
